Heavy showers, Strong Wind and Rough Sea Advisory

Issued by the Natural Hazards Early Warning Centre

At 03.30 p.m. 25 June 2020 for the period until 03.30 p.m. 26 June 2020

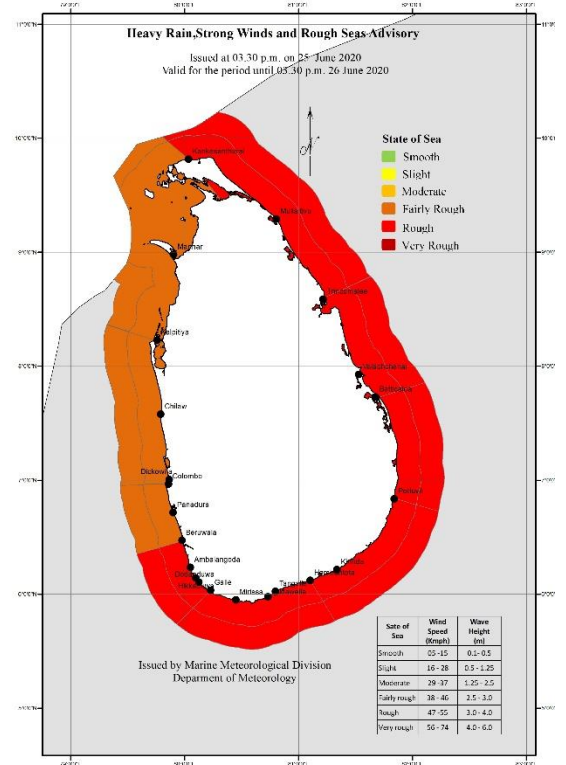

For the Northern, Eastern and South-eastern deep and shallow Sea areas of the island

PLEASE BE AWARE

Due to the low level atmospheric disturbance in the vicinity of Sri Lanka, showers or thundershowers will occur at several places in the above sea areas. The possibility for heavy showers/thundershowers and sudden roughness, associated with sudden increase of wind speed (up to 70-80 kmph) in the above given deep sea areas is high.

The shallow sea area extending from Mannar to Trincomalee via Puttalam, Colombo, Galle, Matara and Hambantota can be rough at times as the wind speed can increase up to (50-60) kmph at times.

Naval and fishing communities are requested to be vigilant in this regard in the above sea areas.
